Stile is one of the most important Italian manufacturers of wood floors. Founded in Umbria, in Città di Castello, in 1965, Stile offers today a wide range of products such as solid wood, two layers or three layers wooden floors, inlays floors and floors for outdoors. During the years 2007-2008 huge investments directed to the production process (new production lines) and to the logistics (new fully automated warehouse) have allowed Stile to show high quality. Made in Italy culture in 20 countries and 400 sale outlets all around the world.

STILNOVO

The Stile prefinished

The evolution of the wood floor has reached the prefinished features floors. The use of prestigious wood species, improved by very high quality support materials and treatments, allows the same easy installation and the same duration as solid wood parquets. The most important aspect which characterizes the prefinished floors is surely the easyness and above all the fast laying operation.

As a matter of fact, their structure is composed of a solid wood layer glued on a birch multi-layer support, using vinyl glues without emission of formaldehyde, while the surface is treated with 8 layers of acrylic varnish without solvents and very resistant.

These last generation floors were born to meet the need of time always more urgent for installation, finding a compromise between new life styles and loyalty to tradition.

Due to their special kind of structure Stilnovo line's wood floors may be glued on any kind of subfloor, even on those with heating system, giving a guarantee of perfect stability and planarity over the years. Stilnovo is the prefinished wood floor closer to the traditional solid wood floor. Prefinished floors represent a good choice when there is the need to recover old floors in houses or offices with furnishing.

It is ready to use, presanded and prevarnished, and it allows the complete availability of the rooms in few hours. More precise and faster installation allow to free and to put back furniture during the installation with no need to empty out completely the rooms.

Stilnovo S	
Total thickness	10 mm 3/8"
Thick. of solid wood	3,5 mm 1/8"
Width	70 mm 2" 3/4
Length	500-700 mm 1' 7 5/8" - 2' 3 9/16"

Stilnovo M	
Total thickness	10 / 14 mm 3/8" / 9/16"
Thick. of solid wood	3,5 / 6 mm 1/8" / 1/4"
Width	90 mm 3" 9/16
Length	600 / 1200 mm 1' 11 5/8" - 3' 11 1/4"

Stilnovo L	
Total thickness	14 mm 9/16"
Thick. of solid wood	4,5 mm 3/16"
Width	120 / 140 mm 4" 3/4 / 5" 1/2
Length	800 / 2000 mm 2' 7 1/2" - 6' 6 3/4"

Stilnovo XL	
Total thickness	15 / 20 mm 5/8" / 13/16"
Thick. of solid wood	4,5 / 6 mm 3/16" / 1/4"
Width	180 mm 7" 1/8
Length	1800-2500 mm 5' 10 7/8" - 8' 27/16"
